Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using actual management fees. Prior to June 30, 2004, net of fee performance was calculated using a dollar-weighted average fee. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The management fee schedule is as follows:

Product	First \$50 M	Next \$50 M	Over \$100 M
Market Plus	35 BP	30 BP	25 BP

Fees are charged to clients on a quarterly basis. Fees are calculated as a percentage of assets under management and vary based upon the type of product and the total amount of assets under management. The percentage fee is expressed terms of basis points ("BP") for our products. One hundred basis points equal 1%. All fees are negotiable.
